DATE FEB 03 1992

REPLY TO  
ATTN OF ERD.BKT:0991

SUBJECT Final Phase I RFI/RI Work Plan for Operable Unit No. 9, Original Process Waste Lines

TO: J. M. Kersh, Associate General Manager  
Environmental Restoration and Waste Management  
EG&G Rocky Flats, Inc.

Please find attached the following documents regarding the Final Phase I RFI/RI Work Plan for OU 9, Original Process Waste Line:

- 1) Comments from SMS on the December 4, 1991, document entitled "Responses to U.S. Department of Energy Comments, Draft Final Phase I RFI/RI Work Plan for Operable Unit No. 9 (Original Process Waste Lines), Rocky Flats Plant",
- 2) HAZWRAP review of the December 4, 1991, document entitled "Responses to U.S. Department of Energy Comments, Draft Final Phase I RFI/RI Work Plan for Operable Unit No. 9 (Original Process Waste Lines), Rocky Flats Plant",
- 3) CDH and EPA comments on the Final Phase I RFI/RI Work Plan for OU 9 (Original Process Waste Lines), and
- 4) Colorado Division of Wildlife Comments on the Final Phase I RFI/RI Work Plan for OU 9 (Original Process Waste Lines).

We understand the time available for modifying the document per DOE comments was limited, however, inspection of SMS and HAZWRAP review of EG&G's responses to DOE comments on the draft final work plan indicate that serious consideration was not given to DOE comments. This conclusion results from a review of the responses to comments, comparison of the responses to comments to the final work plan and comparing the draft final work plan with the final work plan.

We request that the previous comments from DOE to EG&G contained in DOE memorandum ERD:BKT:10150, dated November 21, 1991, along with the attached CDH, EPA and Colorado Division of Wildlife comments be reviewed and the final work plan modified accordingly. Attention should also be given to the attached HAZWRAP review. Note that the

deliverable date for the Final Phase I RFI/RI Work Plan for OU 9 specified in CDH's letter to DOE (attached) is February 10, 1992. You should target the completion of this task by this date. However, DOE will be requesting that this date be moved to February 28, 1992. We will keep EG&G informed regarding this matter. Finally, responses to DOE, CDH, EPA and Colorado Division of Wildlife comments will also be expected by February 28, 1992.

Any questions or concerns regarding DOE, EPA or CDH comments should be addressed to Bruce Thatcher of my staff at 966-3532.

  
David P. Simonson  
Assistant Manager  
for Environmental Management
